

TASK FORCE EFFORT –780CMR1011.3--5-04-07

Amend Chapter 10, Section 1011.3 by adding an item “6” which reads:

6. At least 72 inches (1829 mm) for the ~~single~~ main entrance/exit access in an occupancy in use group A-2 with an occupant load of 50 or more – also see section 1006.2.2.1.

DEFENSE:

The recent tragedy at the Station Nightclub points to the need for larger egress components for A-2 uses.
